#### THE GOOD NEWS.

There has been but one topic of discussion in Honolulu since the arrival of the steamer Warrimoo from all-engrossing intelligence is, however, only a confirmation of what the opposition press here confidently predicted all along, only to be strenuously denied with odious remarks by the organs of the Provisional Government and the Annexation Club. It was in the implicit now divulged, when it had gained all the facts it took especial pains to was clearly a breach of the law. obtain on the ground, that the Hawaiian people from the first conducted themselves with the utmost complacency and decorum. Probably when all the evidence gathered by Commissioner Blount has been made public, it will be found that this very peaceable and patient demeanor on the part of the Hawaiians and their foreign friends has had, in a large measure, much to do with the thoroughness with which President Cleveland's administration has decided to undo the results of Minister Stevens' high-handed interference with the affairs of this

It is a pity that our annexationist contemporaries do not accept the play with more grace than they do, in the extra editions that they in the Star only breaks out in a blacker-blooded flow, when it so far transgresses decency and good manners as to call the late United States Minister, in a display headline, "a har." Little more self-respecting than its evening ally does the Advertiser show itself. In one paragraph it counsels the community to keep cool, and in others explodes with the blustering threats of violence and murder with which the filibustering regime has made the community only too familiar. These papers surely had not taken time to reflect on the bases given by Secretary Gresham for his recommendations. If they had done so, they should have seen that, for nearly every fact cited to the discredit of the so-called revolution, the clearest evidence is furnished by official documents and furnished by official documents and oral testimony from the hands and months of the Provisional Governmonths of the Provisional Governusurped powers of Louis Napoleon. mouths of the Provisional Government and Minister Stevens themselves. There is not one particle of assertion given as coming from Mr. Blount's investigation, which is not backed by the most unimpeachable evidence.

What object the organs of the lost cause have in blustering is impossible to conjecture even by giving fancy its wildest flight. Minister Willis had intimated, some days before the arrival of the news, that the United States Government held itself responsible for the preservation of peace until our affairs were permanently settled. Any attempt on the part of either side to incite commotion, the Minister assured the community, no matter from what quarter it proceeded would be promptly suppressed. The inflam- manifesto on Hawaiian affairs cast matory language of the annexation papers is, in the face of the United States Minister's declaration, sug- at the noble band of men and wogestive of a desire to see the madness committed of declaring war against the United States. Our contemporaries and their whole party might well at this time take a leaf out of the admirable record of the Hawaiians during all these trying months, by preserving composure and dignity with resignation to whatever kind Providence has in store for themselves and the country. Hawaiians and foreigners have lived in peace, and earned a common prosperity without mutual dislike of serious degree, these fifty years, and all that is required to send them along peacefully together for the next half century is the establishment once more of the reign of equal rights and justice to all, under the benign and friendly counsel and support of Hawaii's greatest friend and nearest neighbor, the United States of Amer-

A publie crime of less proportions, but in its moral type similar to the stifling of national life and the reform aspirations of Poland and Hungary a few years ago by the imperial despots, All that American piety, American benevolence, American schools and American patriotism have accomplished in Hawaii, in the past 70 rears, are now centralized in the Provisional Government and stand in its support. It is a Government houestly and ably administered and the best Government that Hawaii ever had. I know not the influence which induced Secretary Gresham to become an active agent in attempting such a grave offence against American civilization, justice and law. His intense hostility to Ex-President Harrison, and to the illustrious Ex-Secretary of State, who passed to his grave in January last, is well known. It was that which caused him to betray and desert the great political party whose honors he had shared and brought him to his present attitude towards his former associates and their work. So far as his recent reflection upon my official action, I care little, except to the degree that his cruel and untruthful words strike men who have for ten months stood so devotedly and unitedly in the defense of American civilization.
